## **Ministry Updates**

We are so excited about the upcoming Mission Trip from TVC and seeing our friends! Last week we visited the Wichi community and we made all of the arrangements for our service project. We also had a Folk Music Concert Fundraising event and it was very successful. As for now, the Lord has already provided \$2,000 and we just need another \$1,500 for buying the playground equipment.

We continue serving the local church here as Sunday School teachers. As well, we are working with the Mission Committee helping the group on leadership development. We are planning a Mission Conference for the first week of October and we hope to have members from several churches of this area.

Marcia started a Bible study with moms in one of the poor neighborhoods where the church has a children's program. She is also doing discipleship with two young moms from our group.

We are also leading a couples S.G. at home every other Saturday. We are five couples, most of them are newlywed and we are excited about walking with them in this stage of life.

I continue meeting with three of my disciples and I'm so encouraged for seeing them growing in their faith on the Lord.

## **Prayer Request**

- \* We Thank God for each one of you, for your commitment with our lives and ministry through your prayers and financial support.
- \* We ask your prayers for the TVC Mission Trip. For safe flights, for the bags, and for good health
- \* Pray for the Service among the Wichis, for the playground project and especially for being a blessing in their lives.
- \* Pray for our physical health. We are in winter time and the flu is a threat, especially for Shaki and her allergies.
- \* Pray for Claudio's upcoming test at the university.
- \* Pray for the moms attending the new Bible study, and that the Lord would bring hope to them.
- \* Pray for the adoption process to be done soon so we can fill a new application for another child.

***BY PRAYER, CLAUDIO, MARCIA & SHAKI***

## **Family Updates**

Once again, we want to share with you some exciting news from Tucuman. Right now, the Soccer World Cup madness has arrived here. Everything around us is light blue and white (the colors of our soccer team). Every game Argentina plays is a great opportunity to get together and have some barbecue with friends.

Shakira is so happy with all of the gifts she received from you. Especially, she loves her cuddle blanket and her USA soccer jersey. Until last week, she was cheering for the USA and the Argentina soccer team every game they played. Shakira also enjoys going to pre-K 4 and she is very enthusiastic about the things she is learning there. She loves Sunday school and she likes to memorize Bible verses. Now, she started to pray almost every day for having 'a little brother and a sister. As well, she became my faithful prayer warrior for every exam I need to pass in Law school!

Marcia really loves being a mom and she is excited about winter break and having the chance to expend more time together as a family. She is working with a friend making all kinds of handmade cards and invitations and some projects on architecture when they have the chance.
